

Looking to create a company but don't know what to do? Here's an idea for you: get ahead in branding and marketing by getting that top notch domain name first!

The aftermarket on domain name is huge and there is a lot of sellers and market places. urlRocket is one of them. A lot of market places offers that really cool domain name, and some other markets like Brand Bucket offers, except for that special domain name, also a logo. Of course this will cost you some extra bucks, but in branding there could be dollars to save. In some places you can even get a small description of a business idea when buying that domain name. Just google it and check it out.

Here are some of my best brandable domain names for sale right now. Let me know if you are interested:
